

Active Directory Cleanup Web Dashboard Trend

Last Modified on 02.21.23

The Active Directory Cleanup Web Dashboard Trend shows AD Cleanup over a set period of time.

Prerequisites

Web Dashboards Trends require a [Recast Proxy](#) in your environment that is allowed to read Active Directory or ConfigMgr as required by the selected tool.

View and Edit Trend Snapshot Schedules

You can view all the trends set up for all web dashboards by navigating to **Administration > Trends** in your Recast Management Server.

Create a Trend Snapshot Schedule

To set a snapshot schedule:

1. In your Recast Management Server, navigate to **Dashboards > ADCleanup**.
2. Click **Create Trend**.
3. In the side panel that opens, name the trend, select or enter a start time, and choose the days when snapshots will be taken.
4. Choose the repeat interval (1 to 4 weeks).
5. Click **Submit**.

After creating a trend, a new snapshot will appear on the ADCleanup graph at each scheduled interval.

NOTE: The first snapshot only shows up after the first interval has passed.

View Trend Graphs

To view trend graphs, navigate to **Dashboards > Trends** in your Recast Management Server.

You can download the trend graph to view it later or share it with others in your organization.

Delete a Trend Snapshot Schedule

To delete a dashboard trend:

1. In your Recast Management Server, navigate to **Administration > Trends**.
2. On the **Trends** page, click the Delete icon next to the trend to remove.
